JSfirm.com Releases New Features to Help Companies Hire, Fast

Roanoke, Texas (October 13, 2021) - JSfirm.com has released new developments to their website to help companies quickly and effectively address the current worker shortage, including more ways than ever to find relevant job seekers, faster.

Companies can see the most recent, pertinent resumes with JSfirm.com Resume Alerts. These daily emails will alert hiring companies that relevant job seekers, local to the posted job or willing to relocate, are actively updating their profile and resume on JSfirm.com.

Another exciting, new feature is the enhanced Airmen's Database. This searchable database allows hiring companies to obtain information on registered, opted-in airmen in a certain geographical location through searching Pilots, Mechanics, Dispatchers, or UAV/UAS Operators, then narrowing those search results by type rating(s), last name, inspection authorization, and more. This new feature is exclusive to hiring companies with an annual membership on JSfirm.com.

JSfirm.com Executive Director Abbey Hutter said, "Employers are finding themselves having to source prospective employees in creative and new ways. JSfirm.com developed Resume Alerts and a user-friendly Airmen's Database in response to the unbelievable hiring demands in the industry. Whether you want to set Resume Alerts and wait for candidates to come to you, actively search for local certified airmen, or both, these new features can help your company save time and operating costs. All of these can be set up in a matter of minutes with a quick call or email to your Account Manager."

Interested in learning more about the newest features? Email jobs@jsfirm.com or call us at 724-547-6203.
