

Spectrolab showcases Nightsun® XPM searchlight and second generation SpectroLink at HAI HELI-EXPO 2023

ATLANTA, March 7, 2023—Spectrolab, Inc. is exhibiting its flagship Nightsun® XPM searchlight and new SpectroLink M2 linking system at HAI HELI-EXPO 2023 in Atlanta this week.

Spectrolab's second generation SpectroLink system is designed to add digital control and linking capability to SX Series Nightsun® searchlights. The second generation SpectroLink adds multiple inputs and outputs for display of system status on various mission management mapping system displays. The new design has successfully completed a rigorous a battery of DO-160G and MIL-STD 461 qualification tests, and the system will be available for deliveries in the third quarter of 2023.

For more than 50 years, Spectrolab, a wholly owned subsidiary of Boeing, has been designing and manufacturing high-intensity searchlights for military and commercial customers around the world with its Nightsun® series of high-powered searchlights for use on helicopters and fixed-wing aircraft.
