The USHST is a regional partner to the Vertical Aviation Safety Team (VAST).

**USHST GOAL:** Reduce the 5 year average fatal US helicopter accident rate to 0.55 fatal accidents per 100K hrs by 2025

**USHST Vision:** A Civil Helicopter Community with Zero Fatal Accidents

### Monthly Safety Report September 2023

<table>
<thead>
<tr>

Average number of days between fatal accidents:

- 2019: 16 days
- 2020: 18 days
- 2021: 17 days
- 2022: 21 days
- 2023: 16 days

Longest time between fatal accidents (past 5 yrs):

107 days (2020)

Each year the U.S. helicopter industry safely flies approx. 3 million flight hours and every second of every flight must be handled with professionalism.
Did “YOU” Know?
In the US there are **12,000** + helicopters, **32,000** + helicopter pilots and over **292,000** aircraft mechanics!

The USHST has identified the following industries for **OUTREACH**:
- Personal/Private,
- Helicopter Air Ambulance (HAA),
- Commercial and Aerial Application

Your participation in joining our vision of zero fatal accidents is important to us. To determine how your interests best align with active USHST efforts, please click the link below to complete the form and submit.

Helicopter Safety OUTREACH events:
- Registration Required for September 2023 Webinars  Please fill out the form to attend and receive the latest information.  [FAA Event Link]
- Copter IFR/Weather Camera Summit - Monday, Sept 11, 2023 9am - 4pm ET
- USHST: ALL HANDS Tuesday, Sept 12, 2023 1pm - 4pm ET
Prev[ious All Hands](#) - June 7, 2023

**Loss of Control - Inflight (LOC-I), Unintended Flight into IMC (UIMC), Low Altitude Operations (LALT).**

USHST continues to work on the implementation of Helicopter Safety Enhancements (H-SEs) developed through data-driven analysis of 104 fatal accidents. The H-SEs use Outreach, Policy, Technology/Equipment, and Training to reduce fatal accidents in these categories.

**US Helicopter Safety Team New Helicopter Safety Enhancements (H-SEs)**

23-01: Promote **conservative go/no-go decision** making (includes performance planning)

-HAI’s Safety Working Group released some early “primer” material on the topic that they’ve socialized through Rotor Daily, and they are working on a formalized work plan for where they’d like to go with it over the next year.

23-04: Improve **fatigue awareness** and risk mitigation of **scheduling factors** leading to fatigue.

-Pulsar Informatics, Inc is leading this effort with support from AMOA and Delta P. They’ve developed an initial work plan.
